EXPERIENCE

UI/UX Designer
[Angika Technology] | May 2025 – August 2026

- Design intuitive user experiences for web and mobile applications.
- Create wireframes, user flows, prototypes, and high-fidelity interfaces.
- Collaborate with stakeholders and development teams to ensure seamless implementation.
- Conduct user research and usability evaluations to improve product experiences.
- Contribute to design systems and maintain visual consistency across products.

Junior UX Designer
[Gizmo Plugs] | June 2024 – November 2024

- Assisted in UX research, user journey mapping, and usability testing.
- Developed wireframes and interactive prototypes using Figma.
- Collaborated with senior designers to improve usability and accessibility.
- Participated in design reviews and iterative product improvements.

Freelance Designer
Self-Employed | April 2020 – May 2021

- Delivered UI, branding, and digital design solutions for independent clients.
- Managed multiple projects from requirement gathering to final delivery.
- Designed responsive interfaces and visual assets tailored to client goals.
- Maintained strong client communication and project management practices.

EDUCATION

Bachelor of Design – User Experience Design
Dayananda Sagar University
Expected Graduation: 2027
CGPA: **9.1 / 10**

SKILLS
